Do you want to partner and network with other UVA students eager to make a difference? Do you want to work on a student-defined, real impact project, NOW?

Using the design process as an activity roadmap, these courses bring together students for real, viable product launch. The best projects engage students who are passionate about science, engineering, business, marketing, advertising, the law and public policy, and many other disciplines to address real-life challenges in the world around us.

Change the world, today.

Thinking about
signing up?
Encourage a 4th
year friend to
join as well!

Recent Student Product Developments

We cannot address
the challenges of
tomorrow with the
ideas of yesteryear.

Real progress
requires vision,
creativity, and
forward thinking.
